

## Crizal Sun™ with Scotchgard™ Protector can be added to tinted and polarized lenses

Crizal Sun with Scotchgard Protector offers four solid tint options in Grades 0 – 3: Black, Gray, Gray-Green and Brown.

Crizal Sun Mirrors™ with Scotchgard Protector is available in three color options on polarized or solid tinted lenses

Silver (Gray 3 polarized or solid tint)

Blue (Gray 3 polarized or solid tint)

Gold (Brown 3 polarized or solid tint)

## Crizal Sun with Scotchgard Protector on Xperio™ polarized lenses

Xperio polarized lenses eliminate glare for greater safety while driving, allowing the wearer to achieve peak visual performance when it is needed most.

Experience the outdoors like never before.

Ordinary lens

Crizal Sun on Xperio polarized lens

Xperio polarized lenses reduce glare while driving—even glare from the dashboard.

For ultimate clear vision, recommend Crizal Sun with Scotchgard Protector on Xperio polarized lenses.

Crizal™ with SCOTCHGARD™ PROTECTOR 3M™ SUN™

## Introducing New Crizal Sun™ lenses with Scotchgard™ Protector!

Stormy scratches on a sunny day

Not on new Crizal Sun with Scotchgard Protector

Cloudy smudges on a sunny day

Not on new Crizal Sun with Scotchgard Protector

Snowy mess on a sunny day

Not on new Crizal Sun with Scotchgard Protector

The superior performance of Crizal Sun has now been combined with the protective power of Scotchgard Protector, making the hardest sun lenses to scratch even easier to clean for the utmost clarity and comfort.

Crizal™ with SCOTCHGARD™ PROTECTOR 3M™ SUN™

# The most scratch-resistant, smudge-resistant, easiest-to-clean sun lens available!

## No sun lens performs better

People generally wear sunwear during conditions and activities when safety and performance are critical. Preventing distractions like scratches and smudges during sports and driving, while delivering sharpness and crispness, ultimately improves wearer safety and performance.

With all the scratch-resistant, water-resistant and smudge-resistant benefits of Crizal Sun™ lenses with Scotchgard™ Protector, your patients can now better protect their investment in their sunwear.

Your patients will appreciate the difference of Crizal Sun lenses with Scotchgard Protector – no sun lens performs better!

## Engineered to be easier to clean and stay that way

Crizal Sun with Scotchgard Protector features a **contact angle of 116 degrees** – far higher than any other sun lens available.

Essilor's patented HSD process forces the molecules in the top coat to be packed together very densely. This creates a higher surface contact angle and gives the top coat the durability that prevents it from breaking down – **even after 20,000 cleanings.**

### HSD Process™

Ordinary lens

Crizal Sun lens

## Vision in sunny conditions is clearer and more comfortable

Patients rely on sunwear, rather than clear lenses, in aggressive environments, where reflections from sand, water, and snow are more intense.

Crizal Sun lenses with Scotchgard Protector possess a unique backside AR technology to ensure that **over 99%** of the reflections from the back of the lens are virtually eliminated.

No reflections on the backside of the lens equals **increased comfort and clarity** for the wearer.

Ordinary lens

Crizal Sun lens

## Integrated technology guarantees superiority

Crizal Sun with Scotchgard Protector's backside anti-reflective (AR) technology provides all of the benefits of Crizal® Alizé® lenses without creating front-side color changes or allowing unwanted light to pass through the lens. All layers are infused into the lens surface to create a single integrated material with **unmatched performance.**

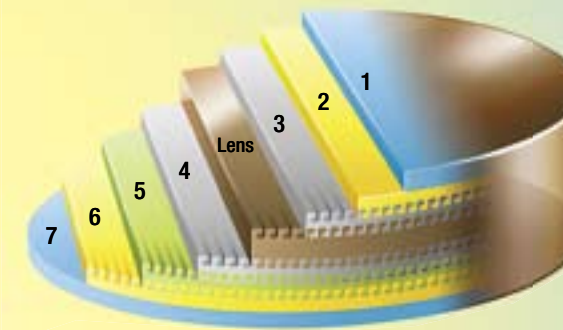

### Integrated Frontside

#### Technology:

1. Pad Control System™
2. Improved Super Hydrophobic Top Coat
3. Crizal Hardcoat

#### Benefit:

- Makes it easy for ECP to edge
- Fights smudges
- Provides scratch-resistance

### Integrated Backside

#### Technology:

4. Crizal Hardcoat
5. Crizal Alizé AR Stack
6. Improved Super Hydrophobic Top Coat
7. Pad Control System

#### Benefit:

- Provides scratch-resistance
- Ends backside reflections
- Fights smudges
- Makes it easy for ECP to edge

## The Crizal Sun™ with Scotchgard™ Protector difference is clear

Designed specifically for sunwear, Crizal Sun lenses with Scotchgard Protector:

- Protect against backside reflections
- Provide superior scratch and smudge-resistance
- Feature improved ease of cleaning on both sides of the lens
- Allow lens color to stay true by maintaining the original color of the lens

### Lens color stays true
